Description

2614/3/65 Bar/Chopper

These are the abc chopper series props. They have been designed for mono hull boats. The blades are cast thin and have a trailing edge almost as sharp as the leading edge. This helps control "chine-walking". Helps a v-hull run flat and smooth on the straights. The sizes are 2614/3, 2714/3 and 2814/3. These are also a 15 degree rake prop. The higher rake takes lift out of the prop to help settle the transom down on the boat.
