Description

30+ PLUS GZR Billet Aluminum Long Block with our 2020 V3 6061 T6 Alum Billet Case

This is a race ready 30 PLUS 2019 GZR Billet long block All the work has been done and ready to go just bolt on all the outside parts. This is by far the best Billet long block on the market by far. The 2019 V3 case is the most diversified Billet crankcase on the market hand down. Our new 2020 30+ Plus is the most powerful 36mm bore on the market. Dont be fooled by others claiming big horsepower with false dyno results we got them covered Out run them everyday its simple buy one or chase one. Also our new option all in one coil setup Thats right no more chasing which coil is bad with our new all in one coil and GZR flywheel setup and no its not like the 320 zenoah the flywheel is the same dia as other marine engines but not the zenoah 320. Buy it one time and never have to worry about coils again these style coils almost never go out and if it does you can change it while it is in the boat. Come as pictured with our new GZR std flywheel inculcated.

Please note: that the pictures of the coil is just a sample coil we have been testing. you will get new coil and flywheel for the 1 pc coil setup if you select that option
