### Description

The Komodo Double Cab assembly kit features a designed double cab truck body molded in a durable 1.5mm thick lexan body. Included with the body is the grille, light buckets, side mirrors, wiper grille, bumpers and roll bar. The Stealth Body Mount system allows you to mount the body on the frame without having body posts visible outside the body. The body is mounted on the GS02 chassis kit with an adjustable wheelbase should you desire customize the rig to fit your crawling style. The GS02 kit has been designed to provide great performance by adding features such as a chassis mounted steering servo, torque twist reduction, zero ackerman steering and hardened carbon steel CVA's and universal joints.

Vehicle shown assembled and painted for display purposes. Needed to complete: Radio System, Steering Servo, Battery, Charger, Motor/ESC, Paint
