Description

Nothing stands in the way of the Monster Tracker as it clears jumps and gaps in the road with ease, leaving everything behind in a trail of dust. The pickup truck body rides high and proud in true American style on tires that are big and wide, just like the country of its birth. Power over and through fields with this affordable monster truck that is built tough for carefree excitement. A one-touch hatch allows the chassis to be easily accessed for battery changes. The dust-proof radio box and diff gear case combine with break-resistant flexible resin material so in the rare event of a breakage, easy replacement and assembly provide beginners with peace of mind. Simply insert 4 x AA-size batteries (sold separately) in the transmitter and charge the battery for the chassis and this factory-assembled Readysset truck is ready to rumble. Start your R/C journey on the right track with the Monster Tracker!

Features:

- Gear box eliminates need for messy backlash adjustment.
- Factory assembled Readysset only requires charging the chassis battery and inclusion of four AA-size alkaline batteries (sold separately) for the transmitter.
- Includes 2.4GHz Syncro KT-232P transmitter.
- Precision modules on differential gear realize high durability.
- Fixed length sus arms eliminate need for precision adjustment of alignment.
- Servo saver protects the servo from crash impact and improves steering feel.

Specifications:

- Length 410mm
- Width 300mm
- Height 175mm
- Wheelbase 270mm
- Tread (F/R) 230mm/230mm
- Tires (F & R) f110x70mm
