Description The RTR R1 rock buggy is now equipped with 2.4GHz radio system, 27T RS-540, Brushed ESC with instant reverse and drag brakes, plus a high torque metal geared servo. Add those to the R1's already impressive list of features such as a light weight tube chassis design, heavy duty portal axles for high strength and higher ground clearance. The G-Transition shocks allow you to custom tune your suspension setup for terrain ranging form smooth slick rock to boulders. With 4-link suspension, 2.2 beadlock wheels, and Bighorn Tires the R1 RTR will tame your trails.

* 7.2V NiMh or 7.4V LiPo, AA batteries, and Charger Required.
