Description

This R/C model assembly kit is a tuned variant of the TT-02 shaft-driven 4WD chassis, featuring an assortment of option parts: oil-filled gear differential units offer near infinite setup possibilities, adjustable front and rear upper arms allow alteration of camber, while the hard-plastic tub lower deck is molded in blue color. Also, in the kit are aluminum propeller shaft and rear upright components, high performance CVA oil dampers, and full ball bearings.

Featured Components:

1. New Adjustable Upper Arms
2. Oil-Filled Gear Differential Units
3. Lower Deck (Hard/Blue) (47339)
