Description Team Associated's RC28 is a scale replica of the iconic RC10 Team Kit. This RC28 looks great and drives smooth thanks to a powerful electric motor and capable drivetrain.

The included 2.4 GHz transmitter allows complete control enabling you to navigate around, through and over obstacles with ease. With its off-road stance and rubber tires, the RC28 handles like no other vehicle in its category.

After the vehicle's integrated battery becomes discharged, the convenient built-in transmitter charger makes it easy to get back to full power and ready to run in less than an hour. A built-in rechargeable battery and 4 AA's are included, so it is ready to go right out of the box! Just charge and drive!

Features:

Everything included in the box -- just charge and go!

2.4GHz 2-channel transmitter

Integrated ESC/Receiver Unit

Integrated proportional servo

1:28 original RC10 replica body
