Description

New for 2023 GZR is our OEM Billet 30 Plus motor the perfect power plant. Here's what you get: our GZR 29.6 full circle crank features a deeper key way channel and less end play so no need to use crank shims. This motor has a stock 36mm OEM Zenoah cyl with our 36mm GZR Promod piston it comes with our billet aluminum crankcase, GZR flwheel and Zenoah E-Z start. This complete motor comes with a great price run as it is or modify it and you have the perfect 30 plus race motor.

Note that we have had made our new 2021 GZR long stroke crank which is the 29.6 crank and has no affiliations with any other engine manufacturer also the rods and bearings are made to our specs not some china cross bred cranks that cost double and are inferior to our new 2021 GZR crank line. Just another innovation from GZR racing

Note: our new GZR crank line are taper cranks and not straight cranks.

ck any place in the world you want find this for this price any place we try our best to keep it affordable for the hobby.
